#### NO TRUST IN BASEBALL AFTER THE BASEBALL TRUST NOW

Resolution Proposed in Congress For Its Investigation-Most Audacious And Autocratic of Them All, is the Charge -Competition Stifled And Men Enslaved.

Washington, March II.—A congressional investigation of the "Baseball trust," "the most audacious and autoratic trust in the country," was proposed in a resolution introduced by Representative Gallagher of Illinois today. The measure would create a special committee of seven representatives to inquire of the department of justice "what steps have been taken against the Baseball trust as against other illegal combinations," to subpoen witnesses and employ assistants. It accused the "Baseball trust" of presuming to "control the baseball trust" of presuming to "control the management of Toung Sharkey, Send all challenges to 5 Bath street, Norwich, Conn.

forced to accept salaries and terms or be forever burred from playing."

Mr. Gallagher said the department of justice knew that there was such a trust under the law, and that he would confer with the department in a day or two a day or two.

Capt. Counihan's All-Nerwich Team is

Down and Out in Straight Strings. It was a slaughter, pure and simple, Monday night at the Donovan alloys, when the Owls special duckpin team met Capt. Jim Couninan's All-Norwich we for the city championship. The match was to be a best three out of five, but the fast-flying Owls cleaned them up three straight at the start so that the match was over in Jis time, without going the limit.

Right down the list with one exception, the five on the Owls team led their individual opponents on total pinfall and the final total team figures were 1,431 to 1,351 in favor of the Owls.

Century scores were tucked in thick all through the Owls' strings, Capt. Donahue setting the pace with strings of 108, 106, and 110 which gave him the fancy total of 324 and the mifty average of an even 198. Sullivan of the same team was on deck with two strings over the century, and Johnson got one. Capt. Counihan, R. Hill and H. Hill of the All-Nerwich each contributed a century string in the All-Nerwich figures. The accores:

CRASH IN PRICES.

Quotations Crumble in Closing Hours of a Day of Uncertainty.

New York. March B.—The move-ment of stocks today was characteriz-ed by uncertainty during the greater part of the session, but in the final dealings prices crumbted all around, with quotations not only at the lowest, at generaly under Saturday's low lev i. In the early hours of trading atthe coalers under the lead of Lehigh Valley and Reading, and a number of more obscure issues also made materimore obscure issues also made material gains, but the movement was so evidently of speculative origin that it falled to attract any outside support. On the other hand, it is not unlikely that the late stack upon values was largely of a bear character and had its foundation on the theory that reaction ought to follow last week's almost uninterrupted advance.

In point of fact, there appeared to be

most uninterrupted advance.

In point of fact, there appeared to be little en which to build the early rise, London sent over a lower range of quotations for our securities, and that market as well as all the continental exchanges seemed to reflect increased apprehension over industrial conditions. The steady dwindling of the coal supply put a further quietus on various industries throughout England, and the threats of a coal strike in Germany became all but an accomplished fact, with the chances favoring a like situation in France.

To add to the day's uncertainties the United States supreme court beid its weekly open session, and adjourned for an hour just before the market closed.

an hour just before the market closed. This gave rise to the possibility of some adverse decisions later in the day, a contingency which was not without offect on Reading, whose status in relation to its coal holdings is now before the court for final adjudication.

Railroad traffic in the west shows some improvement, but a majority of the transportation companies continue to suffer from the abnormal cold.

Germany's demains upon this center for each are unabated, and such loans as that market may repay here at the as that market may repay here at the end of the month are likely to be more than effect by larger borrowings. More thirty day loans to Berlin were negotiated today, at a rate, it was said, slightly better than those of last week. The local inquiry is breadening, with a slight increase for sixty and ninety day accommodations. Bankers look for even higher rates before the end of the month, when many bome settlements

Hefore I received sam-ple by mail, I went to our best doctor ple by mail, I went to our best doctor (and he is second to none in this vicinity) and told him how I felt. He put me up a bottle of medicine. I was about a week taking the medicine, but was no better than when I began. I then began your sample bottle, and before I got through with it, I felt a change. The scalding sensation did not bother only a few times in the middle of the day. I would not have believed such a small quantity would have done so much, but before it was gone I learned that our druggist kept Dr. Kilmer's Swamp-Root and so got a large bottle for one-dollar but actually worth one hundred dollars.
